

ERIC MORAN

MUSICIAN & EDUCATOR

ARTIST STATEMENT

"Miles Davis, Jimi Hendrix, Stevie Wonder... These people weren't just entertainers, they were explorers. I fully intend to continue the search for uncharted musical territory and share my discoveries with the world."

"I am interested in exploring how music, specifically without lyrics, can be used to tell stories. I want to paint pictures with sound. I want to excite, energize and arouse people with sound. I want to relax, soothe and heal people with sound."

"When I was a child, I wanted to be a superhero. I wanted to be something magical with superpowers. Early on I concluded that being an artist was the closest thing I could become to a superhero. I realized that art and music have the ability to communicate emotions and ideas without using words. Music can be the catalyst for both beauty or destruction. Music may also be our mode of communication with the mystical and divine."
